NEW TORK, July 15.—The Monday stock market showed good effects of last week's strong tendency in the accretion of buying orders from outside sources with the opening of the new week. These were not strikingly large, but their effect on sentiment was impressive as an evidence that this demand might be attracted at the present level of prices, which was left questionable by the sluggish movement of the general market last week. It is true that the buying orders from outside sources reported by the commission houses were accompanied by selling orders which were considered to represent profit-taking on holdings of securities of an investment character which have been held since an early stage of the recovery in prices. This selling might-be supposed to represent distrust of the present level of prices on the part of an element whose judgment is accepted with respect in financial quarters.

While the new outside business was thus balanced to some extent, the stirring of speculative interest indicated by the presence of these orders encouraged their operations. Early efforts centred on St. Paul, this movement being designed apparently as a pendant to the four-point spurt in Union Pacific in the Saturday market. That stock, also, was carried a fraction higher than Saturday's record price of 193 3-4. These efforts were supplemented by advances during the defect realizing sales in United States Steel, to take advantage of the high prices to which it had risen last week. An analysis of last week's operations disclosed that United States Steel embraced rather more than 30 per cent, of the aggregate dealings in all stocks for the week. The field of the operations thus implied leaves not difficulty in understanding the necessary effect of a movement in it to reserve the supplemented in the surface after the adjusted the surface appearance after the adjusted to the present of the perations in its tooks.

NEW YORK, July 19.—There was another sensational break in the cotton market to-day, with cotton for December delivery closing at 11.77, or 35 points below the final quotation of Saturday, and 110 voints, or \$5.50 a bale, below the high record of last Tuesday.
